Dear Jim,

Attached please find three (3) inclosures which contain the information you requested in regard to Air Force numbers assigned to MP numbers.

Equipment List I, Revision E is the latest FAK listing for System I. Air Force stock numbers are written above the MP numbers which were identified by our research people.

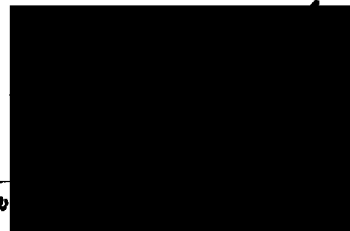

Equipment List III, Revision C is the latest FAK for System III. The same procedure as above was followed in listing Air Force numbers for this list.

The last inclosure is a copy of our racks listings. Each rack has a separate list. List Y-A applies to the A rack, Y-B to the B rack and so on for the C, E, F, G, H, J and K racks. The Air Force numbers which were assigned to MP numbers in these listings are found toward the end of each list. For example, starting on page 4 of List Y-A you will find the Air Force numbers that apply to the A rack list. However, since the printing of these lists, other MP numbers have been identified with Air Force numbers so that you will have to scan each list page. Air Force stock numbers are cross referenced to the MP numbers in the item description.

Hope this will take care of your needs.

Sincerely,

25X1A
